

**Pennsylvania Society
of Professional Engineers**

Delaware County Chapter

Web Site: <http://www.pspe.org/delco/home.html>

2009 will be an exciting year for the Pennsylvania Society of Professional Engineers (PSPE) as we celebrate 75 years of service to the country. On September 3, 1934 the National Society of Professional Engineers was founded, dedicated to promoting and protecting the profession of engineering as a social and economic influence vital to the affairs of these United States. The Society, through state and local chapters, is a primary force protecting the public through enforcing and strengthening engineering registration laws, thus fortifying the level of competence and ethics within the engineering profession. Our Chapter, PSPE's Delaware County Chapter, was one of the first to organize.

Engineering accomplishments over the last 75 years in Delaware County are numerous and had a significant impact on the character of where we live, work and raise our families. On April 1, 2009, the Delaware County PSPE Chapter will be hosting a special dinner celebration in honor of this milestone in our history. 6abc's Cecily Tynan and the City of Chester's David Sciocchetti will take us on a journey through the decades touching on some of the greatest engineering accomplishments and saying "thank you" to those who made them possible.

As part of this special 75-year anniversary celebration, we are developing a commemorative book that will serve as a keepsake to showcase major engineering accomplishments and achievements that have shaped Delaware County into the vital regional and global force that it is today.

Your support is greatly needed to make the event, and our commemorative book, a reality. Please review the attached applications and be a part of the celebration of Delaware County's rich and significant heritage of engineering achievement.

We thank you in advance for your enthusiastic participation.

Sincerely,

Eileen M. Nelson, PE
Delaware County Chapter PSPE President
