

# The Pennsylvania Initiative...

*Engineers prepared to serve when disaster strikes.*

---

## YES! I volunteer to provide Engineering services to help disaster recovery efforts.

Thank you for volunteering! Please understand that your willingness to volunteer does not obligate you to do so. Circumstances may limit your participation. The goal of this program is to identify, recognize and coordinate Engineers who have a willingness to help when needed. Services provided by any volunteer are to be free-of-charge, including any associated expenses.

Direct questions regarding completion of the form or the Pennsylvania initiative to Harve Hnatiuk, P.E. via e-mail ([harvehnat@aol.com](mailto:harvehnat@aol.com)) or by calling (215) 542-8700, ext. 133.
