610-375-9301 by Monday, October 12th.

To join PSPE please visit [www.nspe.org](http://www.nspe.org) or [Reading Chapter Website](#) for membership application.

#### Event Summary

Join us for a tour of the Manatawny Still Works, which focuses on distilling American Craft whiskey, but also makes, vodka, gin, and rum. Using wash (sugar water extracted from grains) produced by Sly Fox Brewing company's fully automated 50hL German brewhouse, MSW utilizes two stills. For the first distillation, a 19-plate continuous stripping column is used. The second distillation, or spirit run, is done in an automated hybrid pot still with 8 plates where the "cuts" are made to clean up the whiskey. The whiskey is then aged in new 53-gallon white American oak #4 char barrels for 2 years.

**A CERTIFICATE FOR 1 PDH WILL BE DISTRIBUTED AT THE CONCLUSION OF THE PRESENTATION (if applicable).**
