

MATHCOUNTS®

www.mathcounts.org

MATHCOUNTS® is an academic competition to encourage math skills for children in 6th, 7th, and 8th grades providing today's students with the foundation for success in science, technology, engineering and mathematical careers. During its twenty-eight years of competition, Southeast Pennsylvania Schools have participated in the competition at the local, state and national levels. In years past, students from the Valley Forge Chapter competition went all the way to the National Competition!

The top 6 individuals from the Valley Forge 2007 MATHCOUNTS® competition.

As you can see from the picture, the excitement that surrounds the competition is contagious. More than 300 students participated in the joint Bucks County/Valley Forge Chapters Competition. It is a wonderful day that cannot be accomplished without the help of many volunteers and donations from local companies.

This 29th year, as in years past, the Valley Forge Chapter and Bucks County Chapter competitions will be held together on February 25, 2012. This will then be followed by the state competition in March and the grand finale, held in May is the 2012

Raytheon National Competition in Orlando, Florida. By supporting the MATHCOUNTS® program, you are aiding to improve the math abilities of the area's youth. There are many opportunities to help make MATHCOUNTS® a success!

All donations are appreciated, no matter how large or small! The funds collected go towards materials for the competition, facility costs, awards, snacks, lunch, and entertainment for the Mathletes® (children). All contributing companies will receive mention in the competition brochures. Please contact us for the forms for all contribution levels and tax information.

If you have any questions, or would like to contribute to the MATHCOUNTS® Foundation in another manner, please feel free to contact me at the number or email address listed below.

Thank you in advance for your support of MATHCOUNTS®.

Sincerely,

Daniel Humes, E.I.T.
