2020 On Demand Access

ANNUAL CONFERENCE | ON DEMAND
SAI launched our public works service with assignments for highway and bridge design and bridge inspection in 1964. Since then, we have earned a reputation for our civil engineering expertise and have since expanded to multiple office locations across Pennsylvania and Florida. SAI offers client-centric services to all of our clients. Whether it is roadways or bridges, SAI provides value and identifies ways to enhance your project’s efficiency while bringing creative design solutions to your transportation expansion or rehabilitation projects.

**Engineers’ Creed**

As a Professional Engineer, I dedicate my professional knowledge and skill to the advancement and betterment of human welfare.

I pledge:

- To give the utmost of performance;
- To participate in none but honest enterprise;
- To live and work according to the laws of man and the highest standards of professional conduct;
- To place service before profit, the honor and standing of the profession before personal advantage, and the public welfare above all other considerations.

In humility and with need for Divine Guidance, I make this pledge.

*Adopted by National Society of Professional Engineers, June 1954*
The 2021 conference is a partnership between NSPE and Pennsylvania Society of Professional Engineers.

This conference is an opportunity for PEs and those on the path to licensure to connect with like-minded professionals, earn continuing education credits, and learn about the profession’s top issues.
